RESTAURO
SALONE INTERNAZIONALE

The Future of Restoration starts in Ferrara — 2027 Edition

XXXII International Exhibition of Cultural and Environmental Heritage

May 11-13, 2027 | Ferrara Expo

The premier platform where Italian expertise connects with major public buyers, global markets and technological innovation.

Innovating to Preserve

The 2027 edition redefines the paradigms of conservation. Not just a trade fair, but the global crossroads where major restoration projects meet operational excellence.

Synergistic integration of expertise

Direct access to contracting authorities

Development of partnerships in global markets

Edition
XXXII

High-profile partnerships

Ministry of Culture (MiC)

A prestigious showcase of its Institutes, Superintendencies and Directorates, featuring a major exhibition space and a distinguished conference program.

MAECI – ITA / Italian Trade Agency

Internationalization Partner. Facilitating the organization of the B2B agenda with international delegations.

Assorestauro

A long-standing partner and Italy's leading business network. It participates together with its member companies and organizes conference and discussion sessions.

National Council of Engineers (CNI) – Professional Associations

Thematic sessions and provision of Continuing Professional Development credits (CPD).

Universities - Vocational Training Institutions - Formedil

Scientific collaboration, development of new technologies for conservation and advanced specialized training.
Safety on restoration sites.

ENEA - Research Centers

Strategic partner for energy efficiency, sustainability and technological innovation in restoration.

Italian Army

Cooperation for the protection and restoration of historical-military heritage and the deployment of dual-use technologies.

L'Immagine Ritrovata – Specialized Laboratories

Collaboration with excellence in the field of digital restoration and other specific areas for multimedia preservation.

Digital Evolution & Innovation

The sector is evolving. The exhibition showcases tools that streamline interventions, raise safety standards, and enhance structural monitoring.

Artificial Intelligence
Applied to cultural heritage and diagnostics.

Digital Humanities
Management of historical data and documentary sources.

Advanced Surveys
Drones, video mapping and 3D modeling (BIM).

Safety & Seismic Engineering
In complex construction sites and structural interventions.

Italian Know-How

A dedicated area to craftsmanship, to mastery in the use of materials and to high specialization that make Made in Italy an irreplaceable global model.

- **Materials and Tradition:** exclusive focus on manual and historical techniques.
- **Live Workshops:** practical demonstrations to observe applied workmanship up close.
- **Meet the Masters:** know-how as a strategic productive asset and not just as a historical artifact.
- **Products, materials and equipment:** top-quality professional solutions for restoration and conservation.

The strategic value for your company

Exhibition Space

Strategic networking in an ideal environment to develop synergies with stakeholders, partners and potential clients.

Technical Workshops and Conferences

Organization of seminars under your own management with the possibility of issuing training credits.

International B2B Agenda

Access to the International Area for pre-scheduled meetings with foreign buyers and delegates organized in collaboration with MAECI - ITA - Italian Trade Agency.
